Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Ex parte Quayle

This application is in condition for allowance except for the following formal matters:

Drawing figures 1-4 should be labeled prior art.

The claimed “the lens with shorter focal length” is objectionable as no lenses with long and short focal length are set forth in the claim. Amending the language to “a lens with shorter focal length” would overcome the objection.

The claimed “that is so shaped like a column or square column or the like” and “is made of glass, plastic or the like” is objectionable as the metes and bounds of the expression “and the like” cannot be ascertained with certainty. Deleting “or the like” would overcome the objection.

Regarding claim 3, the claimed “and fixed on the axle of the motor” is indefinite as it cannot be determined what is fixed on the axle. Deleting the phrase “and fixed on the axle of the motor” or clearly associating the phrase with the worm gear would overcome the objection.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose or suggest "means to adjust and extend the back focal length" of a lens mounted in “a lens turret” in combination with the remaining claim elements as set forth in claims 1-3.

Conclusion

The Ojala reference is cited for teaching adding a high index of refraction plate in order to adjust the back focal length of a lens in order to focus the lens.

Melman is cited for teaching adding a high index of refraction plate to shift the back focal length of an objective lens in order to focus on a CCD adapter that shifts the focal plane from that of the standard film plane.
